Toughened Curved Glass

Glasshape Ltd
January / February 2010

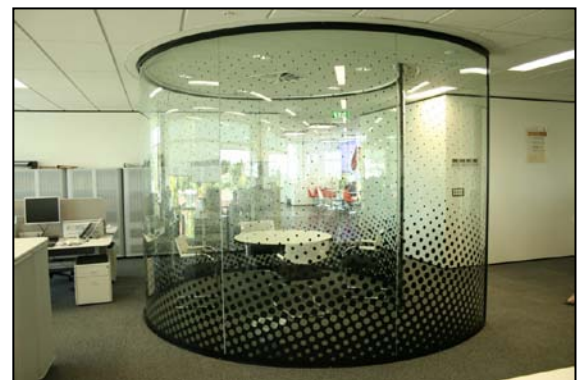

Welcome to the first issue of
TemperShield News for 2010!!

Thanks for your support and custom over the last year - I'm sure we all deserved a well-earned break - ready for the boomer business year of 2010... We are very happy with the projects completed over 2009, a lot of curved glass went in around Australia, New Zealand and even further afield (places like Turkey, Singapore, England and USA).

I have included some photos of an upmarket office in Auckland City - curved office meet & greet pods...and photos of another project on page 2 using Glasshape frameless curved glass partitioning. Give us a call on 1800 042 716 if you would like your office to look like this...

For an electronic copy email – sally@glasshape.net.nz

If you have installed some of our curved glass, and wish to see it on one of our news pages, send photos to info@glasshape.net
