

Toughened Curved Glass

# TemperShield News

Glasshape Specialist Glass Products  
September / October 2008

Dear Valued Client,

Welcome to Sept / Oct TemperShield News. More spectacular results from architects with flair. The commercial shot below is the reception area of one of our recent projects. Note the easy glass installation using fabricated stainless steel channels and the glass being grout fixed. The stainless steel handrail is bolted off the glass panels. TemperShield glass can be supplied toughened and laminated as shown on the top floor balcony.

Commercial Spiral Stair and Balustrade

**TemperShield**  
TOUGHENED CURVED GLASS - BY GLASSHAPE

**WhisperShield**  
ACOUSTIC-RATED LAMINATED GLASS - BY GLASSHAPE

**GuardShield**  
MULTI-LAYERED INTRUDER RESISTANT GLASS - BY GLASSHAPE

**StormShield**  
MULTI-LAYERED CYCLONE RESISTANT GLASS - BY GLASSHAPE

**DuraShield**  
AUTOMOTIVE AND MARINE GLASS - BY GLASSHAPE

**AmmoShield**  
MULTI-LAYERED BULLET RESISTANT GLASS - BY GLASSHAPE

The residential shot is a spectacular project which highlights what can be achieved with curved toughened double glazed units. Had it been completed in flat faceted sections you could not hide the double glazed joins.

Here's a challenge – Who can come up with an award winning project using curved toughened glass - a masterpiece for us to showcase in the next Trends publication?
